The New York Times also featured one of our clients MXYPLYZYK on several occasions in the HOME and STYLE sections. As did New York Magazine, The NY Sun, The Daily News, and InStyle magazine. ### A FEW WORDS FROM A FEW CLIENTS:

*Think Tank 3 are highly creative and original thinkers who use the passion of their convictions to connect their clients to the target audience. They're also lovely people to work with. I'd hire them again without a second thought.* **Alex Matthiessen, Executive Director of Riverkeeper**

*Before we selected them, our scrupulous committee looked at a dozen or more firms, six of them very closely. TT3 won easily and, in retrospect, I'm so happy with the choice. They created a lucid, intelligent and beautiful visual identity and campaign that all feel befits, even elevates them. Such work will crystallize the public's understanding of any organization's mission.*

**Dr. Rebecca Shahmoon Shanok, Director of Institute for Infants, Children and Families/JBFCs**

*Our website created our brand and it is not only beautiful and uniquely "us" it was also profitable within the first month and sales have increased progressively every month, even in a very challenging economy for retailers.* **Kevin Terpstra, Owner of MXYPLYZYK**
